SALTERS'
CHARITABLE FOUNDATION

The Salters' Charitable Foundation (SCF) – Applications for General Grants

A limited amount of small donations as General Grants are available outside of our Project Grant programme. Please note that unsolicited applications for General Grants will not be accepted unless applicants can demonstrate that:

- They have the support of a member of The Salters' Company
- AND their request is not for more than £3,000

The Company's flagship charity is The Salters' Institute which promotes science education, and applications to the Salters' Charitable Foundation for funding in this area will not be considered.

If your organisation meets the above requirements, then please send the Charities Development Manager:

1) A covering letter, summarising your appeal
2) An application document, no more than three A4 sides in length
3) A set of annual accounts*.

* If your most recent audited accounts are available on the Charity Commission website, please highlight this in your covering letter and you will not be required to submit a hard copy with your application. If your accounts are not available online, please include a copy as part of your application.

Applications may be submitted either via:

Email – to charities@salters.co.uk

Or post – to:
Ms Vicky Chant, Charities Development Manager
Salters' Charitable Foundation, The Salters' Company, Salters' Hall, 4 Fore Street, London, EC2Y 5DE

Please note:

- If you would like confirmation of receipt, please provide an email address for this purpose and specify this in your covering letter.
- We regret that due to the volume of applications received we are unable to advise unsuccessful applicants of the outcome of their applications or provide feedback. If General Grant applicants have not received a response from SCF within six months of submitting their application then they must assume they have been unsuccessful.
- Unless invited to re-apply, unsuccessful applicants are not eligible to re-apply for two years following the date of an unsuccessful application.
