

**“The Salters’ Camp was great! It made me completely change my mind about Chemistry....”**

*The Camps are 3 day residential events held at Universities throughout the UK*

**DON'T MISS OUT ON.....**

- *Hands-on practical Chemistry*
- *A taste of life in University Halls of Residence*
- *Lively chemical demonstrations*
- *Evening social activities*
- *Meeting new friends*

*All for £90 (non-refundable) plus travel expenses*

**“The Camp really inspired me and opened my mind to science....”**

**A Typical Day at a Salters’ Chemistry Camp!**

During the morning, participants could be using their detective skills to pinpoint the culprits selling their own brand of painkillers or maybe even be exploring the oscillating reaction related to the process that gives tigers their stripes.

An action packed afternoon’s activities will follow which might involve investigating the reasons why jellyfish glow in the dark or being given the chance to create fridge magnets from milk!

But that’s not all!!! The day will end with activities to enjoy with all your new friends such as tenpin bowling, a flash bang demonstration or even a ghost walk if you dare!

**“I had a really great time, making lots of friends and doing lots of experiments that I wouldn’t otherwise get to do!”**
